

1

Why does the passage say the
Qur'an is not poetry?

Cevap 1

Because its truths are far too vast and lofty to be reduced to poetic fancy, and its form is not bound by poetic meter.

2

How does freedom from meter
affect the relationship between
verses?

Cevap 2

It allows each verse to serve as a point of connection with many others across the text.

3

What kind of relationship among verses becomes possible when meter does not limit them?

Cevap 3

Many-sided links of meaning can form among verses throughout the Qur'an.

4

What does this suggest about
reading the Qur'an?

Cevap 4

It suggests that verses should be read with awareness of their broader connections, not as isolated lines.

5

What does the passage mean by saying each verse can be a brother to others?

Cevap 5

It means verses support,
complement, and illuminate one
another.

6

How does the example from Surat al-Ikhlas strengthen this point?

Cevap 6

It shows that compact revelation
can unfold into many linked
teachings about tawhid.

7

According to the passage, what is
one mark of poetry?

lisans 13-soz-eng-with-arabic-p02-kuranin-siirden-mustagni-
olusu

Cevap 7

It dresses up weak or ordinary subjects with striking images so they appear more impressive.

8

Why would that approach be unfit
for the Qur'an according to the
passage?

Cevap 8

Because the realities the Qur'an speaks about are already greater than anything poetic imagination could add.

9

Why is imagination said to be inadequate before Qur'anic truth?

lisans 13-soz-eng-with-arabic-p02-kuranin-siirden-mustagni-
olusu

Cevap 9

Because even the highest imagination remains small beside the realities the Qur'an presents.

10

What is the function of the examples about the folded heavens, alternating night and day, and the final blast?

lisans 13-soz-eng-with-arabic-p02-kuranin-siirden-mustagni-
olusu

Cevap 10

They illustrate the power of
Qur'anic expression in presenting
vast realities directly.

11

What two main reasons are given
for why the Qur'an is not classed
as poetry?

Cevap 11

Its message contains endless exalted truths, and its wording is not constrained by poetic meter even though it is perfectly ordered.

12

Although the Qur'an is perfectly arranged, why does the passage still stress that it is not verse?

Cevap 12

Because its order does not come from poetic rules but from a broader and more meaningful arrangement.

13

What picture is used for the relation of one verse to many others?

Cevap 13

A verse is pictured almost like a focal point that reaches out to many surrounding verses.

14

What kind of unity does this
create in the Qur'an?

Cevap 14

It creates a flexible but deeply connected unity across the whole revelation.

15

What educational point is made
by saying there are many
“Qur’ans” within the Qur’an?

Cevap 15

The text can teach different communities of readers through multiple integrated layers of meaning.

16

What lesson is the reader asked
to take from the image of the
stars?

Cevap 16

That what may look loose or scattered on the surface can still contain a precise inner harmony.

17

How does the passage define poetry in a critical sense?

Cevap 17

It describes poetry as making small or lifeless matters seem grand through decorative imagination.

18

In the passage's critique, how does poetry treat lesser subjects?

Cevap 18

It enlarges them through
glittering expression and
imagined beauty.

19

How does the Qur'an stand above
that method?

Cevap 19

Its subjects are themselves so great that embellishment would only fall short of them.

20

What quality of the Qur'an makes poetic fantasy unnecessary, according to the passage?

lisans 13-soz-eng-with-arabic-p02-kuranin-siirden-mustagni-
olusu

Cevap 20

Its truths are already endlessly
radiant and elevated.

21

Why is not being tied to meter
presented as a strength?

Cevap 21

Because it gives the verses freedom to connect across the whole text in rich and wide-ranging ways.

22

How does the passage portray the freedom of each verse?

Cevap 22

Each verse can act independently
while still linking meaningfully
with many others.

23

What image is used to show that
one verse can relate to many
others at once?

Cevap 23

The image of a verse having sight
and orientation toward other
verses.

24

Why does the passage compare
Qur'anic verses to stars?

Cevap 24

Because they seem separate at first, yet they are actually linked through a deeper hidden order.
