CEVAP ANAHTARI

11sinif supreme-sign-p11-the-testimony-of-the-heavens-1st-degree-dominical-activity-and-the-declaration-of-divine-unity - Set 1 - CEVAPLAR

1-) What main claim is made about the activity seen in the heavens?
It is presented as clear evidence that the Creator must exist and must be One.

2-) Which six features of heavenly rule are highlighted in the passage?
Bringing things under command, managing them, turning them, arranging them, purifying them, and assigning them duties.

3-) Why does the passage treat these features as proof instead of random events?

Because they appear on a vast scale, in a complete way, and can be directly observed in the heavens.

4-) What does the passage mean by saying this proof is even clearer than the heavens themselves?

The order and control shown in the heavens point so strongly to their Maker that the sign is more evident than the created things being looked at.

5-) How does the statement about the heavens connect unity with existence?

It teaches that the same heavens point not only to a real Creator, but also to the fact that this Creator has no partner.

6-) What role do all things in the heavens play in this testimony?
Everything in the heavens joins in showing the same truth, so the witness is broad and not limited to one part.

7-) What is the purpose of including the formal declaration after the explanation?

It sums up the meaning in a concise faith statement that turns observation into belief.

8-) How does the passage move from physical observation to a conclusion about Allah?

It starts with visible patterns in the heavens and then reasons that such perfect command must come from the Necessary Being.

9-) What does the phrase about observed perfection add to the argument?

It shows that the claim is not based on imagination but on things that can actually be seen.

10-) If a person accepted the greatness of the heavens but denied one Creator, which part of the passage would challenge that view most directly?

The part that says the same wide-reaching and unified control over all of them testifies to one necessary and unique Creator.

7-) What does the passage imply about disorder in the heavens?

8-) Why is the testimony called perfect or complete?

8-) Why does the passage end with a declaration of faith in Arabic and its meaning?

To express the conclusion of the argument in a devotional and doctrinal form.
