They are

CEVAP ANAHTARI

2sinif supreme-sign-p13-the-atmosphere-the-proof-of-divine-unity-in-the-obedient-service-of-cloud-and-wind -

Set 1 - CEVAPLAR

1-) What does he say the cloud does not have?

Knowledge and feelings like pity.

2-) If the cloud does not feel pity by itself, why does it come to help?

Because it is sent by a commander.

3-) What does the traveler say the cloud draws across the sky?

A meaningful pattern.

4-) Who does the cloud hurry to help?

Those in need.

5-) What are the raindrops compared to when they fall from the cloud?

Tears of mercy.

6-) What do the tears do to hot sunshine on the earth?

They lessen its heat.

7-) What does the passage say each tiny part of the air is like?

A soldier obeying orders.

8-) Besides helping living things, what else does the wind manage in the sky?

The clouds.

9-) What does the wind do for clouds?

It directs them.

10-) What does the verse about winds and clouds support?

That they are kept in order by Allah.

2sinif supreme-sign-p13-the-atmosphere-the-proof-of-divine-unity-in-the-obedient-service-of-cloud-and-wind - Set 2 - CEVAPLAR

1-) After watching the sky signs, where does the traveler turn his thinking?

To his own intellect.

2-) What is another feeling he says the cloud does not have on its own?
Compassion by itself.

3-) What does it do to the space above when commanded?
It fills it and then empties it.

4-) Then what happens to that design?
It is erased.

5-) What picture is used for falling rain?
Crying tears from mercy.

6-) Then what does he understand about the wind's true role?
It is a worker carrying out orders.

7-) What comparison is made for each bit of air?
Like a soldier listening to its leader.

8-) Give one growing job of the wind.
Helping plants spread pollen and grow.

9-) What are the two simple elements named in the passage?
Hydrogen and oxygen.

10-) What does great order in these particles prove to the traveler?
They are run by wisdom, not by themselves.

2sinif supreme-sign-p13-the-atmosphere-the-proof-of-divine-unity-in-the-obedient-service-of-cloud-and-wind - Set 3 - CEVAPLAR

1-) What does he use to think carefully about what he saw?
His intellect.

2-) What two actions of the cloud show it is controlled?
Going away and coming back.

3-) What does the traveler compare the changing sky picture to?
A sign of gathering and rising again.

4-) What does the cloud ride on as it moves?
The wind.

5-) Who benefits from this gift?
Those who need help.

6-) What does the traveler decide about the wind?
It does not act on its own.

7-) What is one job of the wind for animals?
Giving them air to breathe.

8-) How does the wind help all animals?
It helps them breathe and live.

9-) What two simple things are named as parts of these tiny particles?
Hydrogen and oxygen.

10-) According to the verse mentioned, where are the winds and clouds kept in order?
Between the sky and the earth.

2sinif supreme-sign-p13-the-atmosphere-the-proof-of-divine-unity-in-the-obedient-service-of-cloud-and-wind - Set 4 - CEVAPLAR

1-) What does the traveler say to himself when he thinks about the cloud?

That it cannot act by itself.

2-) What happens to the cloud before it starts its job again?

It disappears completely.

3-) What does the cloud do to the air around it?

It fills it and later empties it.

4-) How large are the rain stores carried by the cloud?

Very huge, like mountains.

5-) Name two good things those drops do.

They water gardens and clean the earth.

6-) What kind of tasks come from the air and wind in this passage?

Wise, caring, and helpful tasks.

7-) What is each particle of air compared to in obedience?

A soldier.

8-) What does the wind make possible for ships?

Sea travel with sails.

9-) What does the traveler say must be directing them?

A hand of wisdom.

10-) What is the main belief statement at the end of this part?

Only Allah can arrange the winds, clouds, and air this way.

2sinif supreme-sign-p13-the-atmosphere-the-proof-of-divine-unity-in-the-obedient-service-of-cloud-and-wind - Set 5 - CEVAPLAR

1-) When the traveler thinks deeply, what does he say about the cloud's own power?

It does not have power to choose by itself.

2-) What does the cloud fill and then empty?

The sky and air above.

3-) What does the cloud do in the sky before the pattern is removed?

It makes a wise design.

4-) What carries the cloud along?

The wind.

5-) What does the rain do for gardens and the earth?

It waters gardens and cleans the earth.

6-) Then why are its actions so amazing?

Because they are guided by a wise commander.

7-) Why can't this servant be acting alone?

Because its many jobs are too wise and ordered.

8-) What does the wind do with the clouds?

It guides and manages them.

9-) Why does the traveler mention hydrogen and oxygen?

To show simple parts can do many ordered jobs.

10-) Who is the only one the traveler says can do all this?

Allah, the One with full power and full knowledge.

2sinif supreme-sign-p13-the-atmosphere-the-proof-of- divine-unity-in-the-obedient-service-of-cloud-and-wind - Set 6 - CEVAPLAR

- 1-) What does he say the cloud is not able to do on its own?
Know us or choose to pity us.
- 2-) What makes the traveler sure the cloud receives commands?
It appears and disappears in an ordered way.
- 3-) What happens to those forms after they appear?
They are wiped away.
- 4-) Who is helped when the cloud carries rain quickly?
Needy creatures.
- 5-) What good result comes to flowers from the rain?
They bloom gladly.
- 6-) Why does he call the wind a servant?
Because it carries out commands.
- 7-) How does the wind serve animals every day?
It helps them breathe.
- 8-) What kinds of communication are mentioned?
Wireless, telephone, telegraph, and radio.
- 9-) What is surprising about the air particles around the world?
They are similar but work in many different ways.
