CEVAP ANAHTARI

5sinif supreme-sign-p25-animals-and-birds-3rd-truth-the-unfolding-of-forms-and-the-tahlel-through-the-agreement-of-3-truths - Set 1 - CEVAPLAR

1-) What is the main idea of this passage?

It says that many different living creatures come from similar small beginnings in a very careful and beautiful way, and this points to Allah's wisdom and power.

2-) What kinds of living things does the passage talk about?

It talks about animals.

3-) About how many different forms of these creatures are mentioned?

It says there are hundreds of thousands of different forms.

4-) What does the passage say these creatures come out from?

They come from eggs and from tiny drops called sperm.

5-) How are those eggs and drops described at the start?

They are described as very much alike or nearly alike.

6-) Are those starting materials described as endless or limited?

They are limited and countable.

7-) How does the passage describe the way the creatures appear?

They appear in an ordered, balanced, and reliable way.

8-) What does calling each creature a "miracle of wisdom" help the reader understand?

It helps the reader understand that each animal is made with great care and wise design.

9-) What image is used to show that this truth is very clear?

The passage uses the image of brightness and shining.

5sinif supreme-sign-p25-animals-and-birds-3rd-truth-the-unfolding-of-forms-and-the-tahlel-through-the-agreement-of-3-truths - Set 2 - CEVAPLAR

1-) What event is being described in this passage?

The passage describes the appearance of countless animals in many different forms.

2-) What does the passage teach about the source of animal variety?

It teaches that the great variety in animals comes about with wisdom, order, and purpose.

3-) Which two beginnings of animal life are named?

Eggs and sperm are named.

4-) How are those beginnings alike?

They look the same or almost the same.

5-) What is surprising about the creatures that come from them?

Even though the beginnings are similar, the creatures turn out very different from one another.

6-) Which words in the passage show that this process is not messy or random?

It says the process is orderly, balanced, and does not fail.

7-) Why does the passage mention that the eggs and drops are limited in number?

It shows that from a set number of simple beginnings, many living creatures are formed in a controlled way.

8-) Why might the passage call each creature a “miracle of wisdom”?

Because each one is made in a wonderful and meaningful way.

9-) Where are the proofs for this truth seen?

They are seen in the animals themselves.

5sinif supreme-sign-p25-animals-and-birds-3rd-truth-the-unfolding-of-forms-and-the-tahlel-through-the-agreement-of-3-truths - Set 3 - CEVAPLAR

1-) What is the “truth” being talked about in this passage?

The truth is that countless animals come into life in many forms from similar tiny beginnings in a very exact way.

2-) What word shows that the number of creatures is extremely large?

The word “countless” shows that.

3-) How many kinds of shapes and forms are mentioned?

The passage mentions hundreds of thousands of them.

4-) What are two examples of the creatures’ simple starting points?

One example is eggs, and the other is tiny drops of sperm.

5-) Do these starting points look very different from one another or mostly alike?

They look mostly alike.

6-) What does the passage say about the order of their coming into life?

It says their coming into life happens with excellent order.

7-) Besides order, what two other qualities are named?

Balance and reliability are also named.

8-) What proves this truth in the passage?

The animals themselves are signs and proofs of it.

9-) What supports this truth according to the passage?

Many proofs and signs support it.

5sinif supreme-sign-p25-animals-and-birds-3rd-truth-the-unfolding-of-forms-and-the-tahlel-through-the-agreement-of-3-truths - Set 4 - CEVAPLAR

1-) According to the passage, what comes forth in many different forms?

Living creatures come forth in many different forms.

2-) How are these creatures described before their forms are mentioned?

They are described as too many to count.

3-) What special value is given to each creature?

Each one is described as showing wise creation in a wonderful way.

4-) From what small beginnings do these creatures develop?

They develop from eggs and tiny life drops.

5-) What is important about those small beginnings?

They are very similar even though they lead to many different creatures.

6-) What does the passage say about the number of those beginnings?

It says they are limited in number.

7-) How does the passage describe the process of development?

It describes it as neat, balanced, and always working properly.

8-) Why is the result more amazing because the beginnings are alike?

Because from nearly the same starting points, many very different living beings appear.

9-) What does the passage say about the number of evidences for this truth?

It says the evidences are as many as the animals.

5sinif supreme-sign-p25-animals-and-birds-3rd-truth-the-unfolding-of-forms-and-the-tahlel-through-the-agreement-of-3-truths - Set 5 - CEVAPLAR

1-) What is one big sign in the passage about the creation of animals?

One big sign is that many kinds of animals come from similar small beginnings in a perfectly ordered way.

2-) How many animal forms are mentioned in the passage?

It mentions hundreds of thousands of forms.

3-) What are the two physical beginnings named for these creatures?

The two beginnings are eggs and sperm drops.

4-) How are those two beginnings described compared with one another?

They are described as the same or almost the same.

5-) What does the passage say about the number of these beginnings?

It says they are limited and not endless.

6-) What matches the number of the proofs in the passage?

The number of proofs matches the number of the animals.

7-) In what manner do the creatures come out from those beginnings?

They come out in a way that is ordered, balanced, and without failure.

8-) What comparison is used to show how clear this truth is?

Its truth is described as shining very brightly.

9-) How many proofs are mentioned?

The passage says they are as many as the animals themselves.

5sinif supreme-sign-p25-animals-and-birds-3rd-truth-the-unfolding-of-forms-and-the-tahlel-through-the-agreement-of-3-truths - Set 6 - CEVAPLAR

1-) What does the passage ask the reader to notice about animals?

It asks the reader to notice how many kinds there are and how carefully they are brought into life.

2-) Are the creatures in the passage few in number or beyond easy counting?

They are beyond easy counting.

3-) What phrase shows that the animals are not all the same?

The passage says they have many different shapes and forms.

4-) What do these many creatures begin from?

They begin from eggs and tiny reproductive drops.

5-) How similar are those beginnings?

They are identical or very close in likeness.

6-) What does the passage say about how many of those beginnings there are?

It says their number is limited.

7-) Why is it amazing that many different creatures come from similar beginnings?

It is amazing because very similar beginnings produce many very different living beings in a wise and exact way.

8-) What does the passage want the reader to notice when looking at animals?

It wants the reader to notice the order, beauty, and wise planning in their creation.
