CEVAP ANAHTARI

5sinif supreme-sign-p87-3rd-truth-1st-mystery-no-degrees-in-essential-power - Set 1 - CEVAPLAR

1-) What is the main point of the First Mystery about Allah's power?
Allah's power has no weakness in it, so nothing is hard for Him to create.

2-) What opposite of power is named in the passage?
Helplessness or inability.

3-) What is another example used to explain degrees in things?
Heat can be more or less depending on coldness.

4-) What are the three examples used to explain this?
Light and darkness, heat and cold, and strength and resistance.

5-) Why can no barrier stop Allah's power?
Because His power has no weakness, shortage, or limitation.

6-) Which four creations are compared to show equal ease for Allah?
Resurrection, spring, a tree, and a flower.

7-) What would happen if Divine unity were denied, according to the passage?

Even making a flower would become extremely difficult, and creation would lose beauty and value.

8-) What would happen to the beauty and worth of creation without Divine unity?

It would lose its fine value and artistic excellence.

9-) What part of creation in this passage is happening where people can observe it?

The making of flowers, trees, animals, springtime life, and other created things happens before our eyes.

10-) Besides existing, what three things do these creatures do in the passage?

They glorify Allah, fulfill their tasks, and leave seeds behind.

5sinif supreme-sign-p87-3rd-truth-1st-mystery-no-degrees-in-essential-power - Set 2 - CEVAPLAR

1-) What is the title of the part discussed in the marked passage?

It is called the First Mystery.

2-) How is that rule connected to Allah's power?

Since His power is essential to Him, its opposite cannot enter it.

3-) What causes different strengths or amounts in created things, according to the passage?

Their opposites mix in and affect them.

4-) Why are there no stronger or weaker levels in Allah's power?

Because no opposite can mix with it.

5-) What does the passage teach about difficulty and Allah's creating?

Nothing He creates is difficult for Him.

6-) How does the passage compare making a huge event and making a small thing?

It says both are equally easy for Allah.

7-) What does the passage say about the quality of Allah's creation, even in small things?

Small things are made with the same beauty and skill as larger things.

8-) What everyday natural examples are mentioned as easy for Allah?

A tree and a flower.

9-) How do these created things arrive in the world?

They come in an orderly way into existence.

10-) What final picture does the passage give of these living things after their work is done?

They leave this world after serving, while their seeds remain for what comes next.

5sinif supreme-sign-p87-3rd-truth-1st-mystery-no-degrees-in-essential-power - Set 3 - CEVAPLAR

1-) In simple words, what does the First Mystery say about Allah's power and weakness?

Allah's power never has any weakness in it.

2-) Why is that idea rejected?

Because opposites cannot fit into the same essential reality.

3-) What example from temperature helps explain the same idea?

Heat changes in level when coldness is mixed with it.

4-) What makes heat vary in the example given?

Coldness affecting it.

5-) What cannot stand in the way of Allah's power?

No obstacle can block it.

6-) What does the passage say about Allah's creating all things?

He creates everything as easily as if it were one single thing.

7-) What does the passage teach about the beauty of Allah's work in a flower, a tree, and spring?

Each is made with amazing beauty and wisdom.

8-) How are a tree and a flower compared?

They are also equally easy for Allah.

9-) Why is it important that these living things are still valuable and artistic even though they are many?

It shows great power and wisdom, not carelessness.

5sinif supreme-sign-p87-3rd-truth-1st-mystery-no-degrees-in-essential-power - Set 4 - CEVAPLAR

1-) What first idea does the passage teach before speaking directly about Allah's power?

It teaches that a real quality cannot be joined by its opposite.

2-) What example is given to show how different levels can appear in something?

Light can be stronger or weaker when darkness mixes with it.

3-) How does the passage explain where levels in things come from?

They come when an opposite enters and affects them.

4-) What does the passage say about creating many things compared with creating one thing?

Allah creates many things as easily as one thing.

5-) Since there is no weakness in Allah's power, what does that mean about obstacles?

Obstacles cannot prevent Allah from creating.

6-) What do we learn from the statement that Allah makes a flower with as much artistry as a tree?

Allah gives perfect care and skill to small things just as He does to great things.

7-) What would become difficult without Divine unity according to the passage?

Making a flower, a tree, and spring would all become very hard.

8-) What do fruits, flowers, trees, and animals do after they come into the world and serve their purpose?

They leave after doing their duties and leave seeds behind.

9-) Even though they are many, how are they still described?

They are still precious and carefully made.

5sinif supreme-sign-p87-3rd-truth-1st-mystery-no-degrees-in-essential-power - Set 5 - CEVAPLAR

1-) What does the passage say about opposites and true nature?

An opposite cannot enter the true nature of something essential.

2-) How is that rule applied to Allah's power?

Since Allah's power is essential and perfect, helplessness cannot touch it.

3-) What lesson do the examples of light, heat, and strength teach?

They teach that differences in level come from the presence of an opposite.

4-) Since Allah's power has no opposite mixed into it, what follows from that?

It has no weak or strong levels and no drop in ability.

5-) What effect do obstacles have on Allah's power?

They have no effect and cannot stop it.

6-) How is a tree used to explain Allah's power?

A tree is said to be as easy for Allah as making a flower.

7-) What seasonal event is mentioned as easy for Allah?

The coming of spring.

8-) What two good qualities do the fruits, flowers, trees, and animals have together?

They are very valuable and also made with fine artistry.

9-) What does the regular coming of plants and animals into existence show?

It shows Allah's power, order, and wisdom.

5sinif supreme-sign-p87-3rd-truth-1st-mystery-no-degrees-in-essential-power - Set 6 - CEVAPLAR

1-) In the First Mystery, what impossible idea is rejected at the start?

The idea that a thing and its opposite could truly join together.

2-) What example from light helps explain the idea of degrees?

Light seems stronger or weaker when darkness is involved.

3-) What makes light appear in higher and lower amounts in the example given?

Darkness mixing with it.

4-) If Allah's power has no levels, what does that mean about creating big and small things?

Big and small things are equally easy for Him.

5-) What important truth is learned from all three examples?

Things have levels when opposites affect them, but Allah's power has no such weakness.

6-) What comparison is made between a tree and a flower?

A tree is no harder for Allah than a flower.

7-) How are resurrection and spring compared?

They are equally easy for Allah.

8-) How does the passage describe the speed and ease with which many living things are made?

They are made quickly and easily.

9-) How are the world's fruits, flowers, trees, and animals described in relation to number and beauty?

They are many and common, yet still full of value and fine design.
