CEVAP ANAHTARI

lisans supreme-sign-p89-2nd-mystery-the-ease-of-essential-power - Set 1 - CEVAPLAR

1-) How is Allah's power described at the beginning of the passage in relation to light?

It is described as the purest and highest kind of light, above all other lights.

2-) How are the inner realities of created things described in relation to that light?

They are described as shining and able to reflect it like mirrors.

3-) What conclusion does the passage draw from these reasons?

That producing innumerable things together is completely easy for Allah.

4-) What statement in the passage rejects the idea of competing tasks?

It says that one matter does not hold back another.

5-) What does the commander illustration add to the argument?

It shows that one command can direct either a single person or a whole group.

6-) Which two Divine attributes are especially highlighted as shaping order in creation?

Justice and wisdom.

7-) According to the passage, what is the source and foundation of order and regularity in creation?

Allah's eternal power together with His justice and wisdom.

8-) What does the passage say about the source of all created order?

It comes from Allah's absolute and eternal power joined with wisdom and justice.

9-) What does the passage teach through the example of the fly in spring?

That giving life to one small being is no harder for Allah than giving life to multitudes.

10-) How is the revival of the earth in spring described?

It is described as a resurrection of the earth's lifeless body.

lisans supreme-sign-p89-2nd-mystery-the-ease-of-essential-power - Set 2 - CEVAPLAR

1-) What central claim does the passage make about Allah's power and difficulty?

Nothing is difficult for Allah's power.

2-) Which created things are mentioned to show the full range of Allah's creation?

The passage mentions atoms, plants, living creatures, stars, suns, and moons.

3-) How does that obedience help explain the ease of creation?

Because when all things submit fully, creating many at once involves no resistance or confusion.

4-) Which contrasts are used to show the complete reach of Allah's power?

Large and small, many and few, and individual and universal.

5-) What does the giant ship example teach about scale?

It teaches that large scale does not create difficulty when power works through order.

6-) What role does equilibrium play in the passage's reasoning?

It shows that balance and order make action easy and effective.

7-) What does the passage imply by mentioning both stars and atoms together?

It implies that the biggest and smallest parts of creation are equally under Allah's control.

8-) What example from spring is used to compare giving life to one and to many?

Bringing one fly to life is compared with bringing the whole species of flies, along with many plants and animals, to life.

9-) What is the significance of reviving one fly and all flies with the same command?

It shows that number does not increase the difficulty of giving life.

10-) How does the passage connect a tree's spring revival to a much larger event?

It uses the tree's return to life as a sign of the earth's broad renewal.

lisans supreme-sign-p89-2nd-mystery-the-ease-of-essential-power - Set 3 - CEVAPLAR

1-) According to the passage, what makes Allah's power unlike created power?

It is eternal, essential, luminous, and unlimited.

2-) What does the passage suggest about the relationship between creation and Allah's command?

Creation responds in complete submission to Allah's command.

3-) Why does the passage say creating countless things is as easy as creating one thing?

Because Allah's power is absolute, luminous, and all things are under that power in complete obedience.

4-) How does the passage describe the relation between separate Divine tasks?

They do not interrupt or hinder one another.

5-) What deeper idea stands behind the ship example?

Order and control make what seems huge and difficult easy to direct.

6-) In the commander example, what remains the same whether one soldier or an army is sent?

The single order remains the same.

7-) How does the passage connect universals and particulars to Allah's command?

It says both the large-scale and the individual are equally obedient to that command.

8-) Besides flies, what other living beings are included in the spring revival?

Plants and animals are also included.

9-) How is reviving a tree in spring connected to reviving the earth?

The passage says both are done by the same wise and just power, with ease.

10-) What does the passage mean by saying Allah revives the corpse of the earth?

It means He restores life to the earth after its dead winter state.

lisans supreme-sign-p89-2nd-mystery-the-ease-of-essential-power - Set 4 - CEVAPLAR

1-) What image is used to describe Allah's power before anything else in the passage?

The image of the finest and highest light.

2-) What does the passage mean when it says countless things can be placed side by side easily?

It means Allah can create many things together without confusion, delay, or strain.

3-) What idea is emphasized by saying great and small are the same for Allah's power?

Size does not make anything harder or easier for Allah.

4-) Which pairs of contrasts are said to be equal before Allah's power? Great and small, many and few, and particular and universal.

5-) What does the example of the huge ship and the child's toy have in common?

Both are shown as movable with ease under proper power and order.

6-) Why does the passage use the image of a sensitive balance?

To illustrate how an exact system responds even to a small addition.

7-) How does the balance example move the argument forward?

It shows that a tiny input can lead to major movement when a system is precisely arranged.

8-) Why does the passage mention reviving a single fly?

To give a small, familiar example of giving life.

9-) What is meant by calling the earth a corpse before spring revival?

It refers to the earth's lifeless state in winter before new life appears.

10-) What does the passage mean by saying that hundreds of thousands of examples of resurrection appear in spring?

It means spring displays many signs of life returning after death, showing resurrection in countless forms.

lisans supreme-sign-p89-2nd-mystery-the-ease-of-essential-power - Set 5 - CEVAPLAR

1-) What is the first reason given for the ease of creating countless things?

Allah's power is presented as supremely subtle and luminous.

2-) What range of creation is listed to show that everything is included? The list runs from the tiniest particles and living things up to heavenly bodies.

3-) Why is the equality of many and few important in the passage? It supports the idea that number does not limit Allah's power.

4-) What human image is used to help explain commanding large numbers?

A ruler directing either one soldier or a whole army with one order.

5-) In the military example, what does one command show?

It shows that the same command can direct one soldier or a whole army.

6-) What does the image of two mountains on a balance emphasize?

It emphasizes precise equilibrium and the ease of affecting even huge masses within an ordered system.

7-) How is this example related to Divine power?

It suggests that Allah's wise laws govern vast things with perfect ease.

8-) What does the passage say about the obedience of all things to Allah's power?

It says all things, whether small or great, follow His command and operation.

9-) What similarity does the passage draw between reviving one tree and reviving the earth?

Both are carried out by the same just and wise power with full ease.

10-) What main belief does the whole passage aim to strengthen?

Trust in Allah's unlimited power and certainty that resurrection is easy for Him.

lisans supreme-sign-p89-2nd-mystery-the-ease-of-essential-power - Set 6 - CEVAPLAR

1-) What picture of Allah's power is given through the language of light?

It is pictured as the highest and purest light.

2-) What is the third reason connected to the behavior of creation?

All things are fully obedient to Allah's command.

3-) Why is it natural, according to the passage, that many things are made as easily as one?

Because Allah's power is unlimited and creation is fully subject to it.

4-) Why is the ship described as being as large as many houses?

To stress how enormous it is and make the ease of moving it more striking.

5-) What does the balance example teach about Allah's power?

It teaches that vast things can be directed with ease through wise laws.

6-) What qualities of Allah's power are connected to order and balance in creation?

Divine justice and endless wisdom are connected to them.

7-) Which Divine qualities make order, regularity, and equilibrium possible?

Allah's justice and never-ending wisdom.

8-) How does the passage present stars and atoms as a comparison?

They are presented as equally manageable under Allah's command.

9-) What does spring demonstrate about Allah's giving of life?

It demonstrates that bringing life to one creature and to entire groups happens with the same ease.

10-) What does this spring resurrection show about the greater resurrection?

It shows that raising vast numbers of beings is easy for Allah.
