Cevap 4 Because the same materials and organized kinds are found across the earth in a broad, consistent way, which points strongly to one source.	Cevap 3 They must belong to and be produced by one single Creator.	Cevap 2 Each kind is shown as widespread over the earth in a unified way, almost as if it has taken possession of it.	Cevap 1 They are described as spread across the entire earth.
Cevap 8 Great power is especially emphasized.	Cevap 7 They suggest complete authority over both the basic materials of creation and the many living kinds formed from them.	Cevap 6 They are pictured as orderly troops spread across the earth under one authority.	Cevap 5 They are portrayed as mighty forces placed under command and made obedient.
Cevap 12 They carry a mark that points to Divine unity.	Cevap 11 The elements and the species of creation are the things said to cover the whole earth.	Cevap 10 He feels an overflow of faith and delight in Allah's oneness.	Cevap 9 It says the matter has already been explained elsewhere, so only a short indication is given here.

13 What does their worldwide spread imply about ownership?	14 What does their worldwide spread imply about production or origin?	15 How does the passage describe the relation between the elements and the One who uses them?	16 How does the passage describe the relation between the species and the same One?

Cevap 16 The species are under His command like organized soldiers.	Cevap 15 The elements are under His command like disciplined servants.	Cevap 14 It implies that they all come from one Maker.	Cevap 13 It implies that they all belong to one Being.
Cevap 20 He has witnessed the Five Truths and feels both strong faith and happiness in Divine unity.	Cevap 19 Because the fuller explanation has already been given in other places.	Cevap 18 The passage leaves no room for rival makers, because everything is shown as serving one authority.	Cevap 17 It makes the point that all these things operate under one will, one rule, and one power.
Cevap 24 It shows that not just general categories but even the many separate instances belong to the same single source.	Cevap 23 The elements with all they contain and the species with all their individual members.	Cevap 22 It points from the widespread presence of shared elements and organized species to the certainty of one Creator behind them.	Cevap 21 They are said to extend over the entire earth.
